Dear professors, good morning. It's a great honor for me to sit here and introduce myself. My name is Qu yansong, 21 years old, ~~I come~~ from **Dalian, Liaoning Province**. I am a senior student majoring in **Traffic engineering** in **Dalian Jiaotong University**.

I'd like to give a brief introduction in two aspects：**academic achievements** and **personal hobbies.**

Firstly, during my college years, ~~I have made rapid and great progress.~~ *academic achievements,*

I worked very hard, passed CET-6, obtained scholarships and national prizes . I also took part in a professor's research program, *on online car-hailing* ~~and~~ gained basic knowledge of ~~traffic engineering research.~~ *data analysis and mode choice modeling* , *and became more interested in academic research.*

Secondly, as for my hobbies, I have board interests. I have been learning **programming**, like python and R language. *by taking online courses* I believe coding skills will be greatly helpful in academic study. I also like **reading, movies ~~and sports.~~** *swimming , and so on.*

To sum up，if I am given a chance to further my education in this famous university, I will spare no effort to master the latest knowledge in my field, and owing to my perseverance and hard work, I believe I can successfully realize my academic dream.

That is all my introduction, Thank you for listening.
